

RIDDER FARMS

ANNUAL BULL SALE

SATURDAY, APRIL 2, 2022 ■ 3 PM
AT THE FARM ■ NEAR HERMANN, MO

Followed by the Family Values Female Sale Offering

ANNUAL BULL SALE

SATURDAY, APRIL 2, 2022 ■ 3 PM ■ AT RIDDER FARMS ■ NEAR HERMANN, MO

SALE SCHEDULE

FRIDAY, APRIL 1, 2022

Cattle available for viewing

SATURDAY, APRIL 2, 2022

Cattle available for viewing

- 11 a.m. Educational Workshops
- 12 p.m. Complimentary Lunch Served to Sale Time
- 3 p.m. Bull Sale
Followed by Family Values Female Sale

SALE LOCATION:

RIDDER FARMS SALE FACILITY

1585 Little Bay Road ■ Hermann, MO 65041

SALE HOSTS:

THE DALE RIDDER FAMILY

1585 Little Bay Road ■ Hermann, MO 65041
Derek (573) 680-4692 ■ Dustin (573) 280-5795
Herdsman, Dustin Schulte ■ Ridder-Farms@hotmail.com
www.RidderFarms.com

SALE DAY PHONES:

- Wes Chism (281) 761-5952
- Derek Ridder (573) 680-4692
- Dustin Ridder (573) 280-5795

SALE MANAGER:

JWC MARKETING LLC

Wes Chism (281) 761-5952
wes@jwcmarketing.com
PO Box 1368 | Platte City, MO 64079

AUCTIONEER:

Clint Hunter, Fair Grove, Missouri (417) 860-1624

PUBLICATION REPRESENTATIVES:

- David Hobbs, *Charolais Journal* (913) 515-1215
- Anthony Peoples, *Livestock Plus, Inc.* (660) 651-6501
- Brett Sayre, *Special Assignment* (573) 881-1876
- Bruce Bradley, *Special Assignment* (417) 848-3457

LUNCH:

A complimentary lunch will be served starting at 12:00 p.m. and served up to sale start at 3 p.m. *Special thanks to Purina Feed and their dealer R.B. Brandt and Sons in Owensville, Mo., for providing the sale day lunch.*

VIDEOS:

All bulls will have videos available for viewing prior to the sale. Bulls and females will be on-site for viewing prior to the sale.

ONLINE BIDDING:

View the sale from your phone, tablet or desktop computer and bid with confidence! Visit www.CCI.live for complete sale information and online registration. If this is your first time to CCI.live, visit the web page and get approved for bidding at least three hours prior to sale time. With good internet speeds you can enjoy the sale from any location and bid with confidence. **WWW.CCI.LIVE**

SALE CONSULTANTS:

- | | | | |
|---------------|----------------|----------------|----------------|
| Ky Stierwalt | (580) 302-3005 | Zane Ward | (620) 376-8218 |
| Parker Henley | (573) 821-1627 | Layne Robinson | (573) 544-7024 |
| Mark Moriondo | (417) 366-1249 | | |

TRUCKING:

Free bull delivery up to 250 miles. Free delivery on the purchase of 3 or more bulls to a central location. For special arrangements, contact Derek Ridder.

HOUSING & DEVELOPMENT:

Ridder Farms bulls have been developed in large traps on a high roughage ration to maintain longevity and feet and leg soundness. Ridder Farms would like to offer buyers the opportunity to house and continue to develop bulls purchased until May 1, 2022. Ridder Farms is not liable for injury or damages to bulls under development.

INSURANCE:

Buyers are encouraged to invest in an insurance policy for mortality and injury on all bulls purchased.

ANNOUNCEMENTS:

Announcements from the auction block will take precedence over the printed matter in the catalog.

MOTELS:

Within 20 miles of Ridder Farms are several options for lodging:

- Stone Hearth Inn (573) 897-9903 ■ Near Linn, MO (west of Ridder Farms on Hwy. 50)
- Bed & Breakfast Lodging ■ Located north of Ridder Farms on Hwy. 19 in the Hermann area

40 BULLS SELLING

CHAROLAIS | RED ANGUS | SIMMENTAL

HEALTH & REGISTRATION PAPERS:

All bulls are fertility-tested and will sell with proper interstate health certificates. Purebred Charolais bulls sell with registration papers and will be transferred to buyer upon payment.

BREEDING GUARANTEE:

Any bull that has been shown to lose fertility during the first six (6) months of ownership may be returned to seller at buyer's expense after notifying seller in writing. The bull must be in healthy condition and accompanied by proper health certificate. Seller has three (3) months to retest the bull to prove he is satisfactory or to replace with bull of equal value or give credit to future sale. Seller will be liable only to the extent of the purchase price in any settlement or adjustment made on the bull that proves to be a non-breeder. Limitations to genetic defects, not injuries. Injuries are to be backed by an insurance policy on the bull purchased by the buyer.

SEMEN INTEREST:

Ridder Farms reserves 1/4 semen interest in all bulls sold in this sale. Potential collection at a later date will be at the buyer's convenience and seller's expense.

LOYALTY PROGRAM:

All buyers of the Ridder Farms 2022 Bull Sale will receive a 5% credit on the total purchase price from the 2022 Bull Sale to be used at the 2023 Bull Sale. Credits will be issued as cash reimbursements after settlement of the 2022 Bull Sale.

VOLUME DISCOUNT:

Discounts will be issued to buyers purchasing 2 or more bulls – 2% for 2 bulls with a cap of 5% on 5 or more bulls. Discounts will be issued as cash reimbursements after settlement of the 2022 Bull Sale.

DOUG, DALE, TRICIA, DUSTIN, DEREK
TRACE AND TRIGG

EDUCATIONAL WORKSHOP SCHEDULE

11 AM Daily Care & Show Day Prep
with Ky Stierwalt & Derek Ridder

12 PM Lunch sponsored R.B. Brandt & Sons

Selling 40+ Female Lots

EPD	CE	BW	WW	YW	Milk	MCE	Mtnl	SC	CW	REA	Fat	MB	TSI
	5.8	-0.4	57	104	23	5.4	52	0.9	21	0.71	0.009	0.11	247.50

EPD DEFINITIONS

Calving Ease Direct (CE) is expressed as a difference in percentage of unassisted births in first calf heifers. A higher value indicates greater calving ease. It predicts the average difference in unassisted births with which a sire's calves will be born when bred to first-calf heifers.

Birth Weight EPD (BW) The expected difference in average birth weight (pounds) of progeny. Birth weight reflects prenatal growth.

Weaning Weight EPD (WW) The expected difference in average weaning weight of calves. The evaluation reflects the genetic influence on pre-weaning growth rate.

Yearling Weight EPD (YW) The expected difference in average yearling weight of progeny. The evaluation reflects genetic influence on both pre-weaning and post-weaning growth rate.

Maternal Milk EPD (MILK) The genetic ability of a sire's or dam's daughters to express in pounds of weaning weight in her calves due to her maternal ability through mothering instinct and milk.

Calving Ease Maternal (MCE) is expressed as a difference in percentage of unassisted births in first calf daughters. A higher value indicates greater calving ease. It predicts the average difference in unassisted births with which a sire's daughters will calve as first-calf heifers when compared to daughters of other sires.

Total Maternal EPD (MTNL) A value to predict the weaning weight performance of calves from a animal's daughters due to genetics for growth and maternal ability. Total Maternal is calculated by adding ½ the WWT EPD to the Maternal Milk EPD.

Scrotal Circumference EPD (SC) The expected difference in scrotal circumference (expressed in centimeters) of a bull's or dam's male offspring at yearling compared to progeny of all other animals evaluated. Research has also indicated a relationship between increased SC EPD and decreased age at puberty for daughters.

INDEX DEFINITION

Terminal Sire Index (TSI) The AICA Terminal Sire Index (TSI) is a formal method of combining Expected Progeny Differences (EPD) – BWT, WWT, YWT, REA, HCW, MARB and FAT – into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

PERFORMANCE & ULTRASOUND MEASUREMENTS

Birth Weight (BW) An actual weight taken soon after the birth of the calf.

Weaning Weight (AWW) Weights are taken between 140 and 270 days of age and adjusted to calculate a 205-day weight (205 +/- 65 days).

Yearling Weight (AYW) Yearling weights are taken between 320 and 410 days of age (365 +/- 45 days) to calculate a 365-day weight.

Ultrasound data available was collected on calves between 320–430 days of age by an ultrasound technician fulfilling the certification requirements of the Beef Cattle Ultrasound Technician Annual Proficiency Testing and Certification (APTC) Program.

Carcass records are adjusted to an age constant endpoint. Therefore selection based on any or all of the carcass merit EPD are comparable among cattle at the same age endpoint.

Carcass Weight EPD (CW) Expected progeny differences for Carcass Weight is a predictor of pounds of retail product at a constant age endpoint. Selection for increased values should result in heavier carcasses, while selection for decreased values should result in lighter carcass weights at the same age endpoint. Carcass Weight EPD are expressed in pounds.

Ribeye Area EPD (REA) Ribeye area is measured from a cross-sectional area of the longissimus dorsi muscle at the 12th rib. Ribeye area is a major component of the USDA yield grade equation and selection for increased ribeye area should result in larger ribeyes and lower yield grades between animals with the same carcass weight. Ribeye area has a positive relationship with weight, the larger the animal the larger the ribeye area. Ribeye Area EPD are expressed in square inches.

Fat Thickness EPD (FAT) Fat thickness is measured at the 12th rib and is the primary component to the USDA Yield Grade equation. Fat thickness has a negative relationship to cutability; therefore, selection based on decreased fat thickness should result in lower yield grades and leaner cattle given the same age endpoint. Fat Thickness EPD are expressed in inches.

Marbling Score (MB) Marbling is a subjective measure of the amount of intramuscular fat in the ribeye muscle. Marbling score is the primary component of USDA Quality grade and selection for increased Marbling Score EPD should result in cattle with higher quality grades at the same age endpoints. Marbling score has a small genetic correlation with fat, therefore producers may select for increased marbling score EPD while not changing external fat thickness when cattle are harvested at the same age-constant endpoint. Marbling EPD is a prediction of the differences in the USDA subjective marbling score between parent's progeny at an age constant endpoint. Marbling is expressed in the same units as the USDA Marbling Score.

Ribeye Area (REA) A cross-sectional image of the ribeye muscle between the 12th and 13th ribs (the last two ribs) of the animal.

Rib Fat (RIB) A scan also collected between the 12th and 13th rib of an animal. A measure of the amount fat thickness around the ribeye.

Rump Fat (RUMP) Collected between the hook and pin bones parallel to the backbone and is a measure of the amount of rumpfat on the animal.

Intramuscular Fat (IMF) The scan taken is a longitudinal image of the 11th-12th-13th rib region for estimation of percent IMF or marbling.

What better way to start off this year's Family Values Sale than offering a flush in the DAM of the current Show Heifer of the Year!

We love to see cattle we have sold go into homes and have success at the highest level for these kids, and this daughter of RF Ms IA Wind 722 did just that. RF Ms IA Wind 035's list of accomplishments includes Reserve Champion Female at the MO State Fair, Champion Female at the KS State Fair, Reserve Champion Charolais at Aksarben and Reserve Champion ROE Charolais Female at the American Royal. IA Wind 722 is admired by many for her versatility in being able to produce both elite females as well as bulls. She is a female you admire for her added foot, bone and power and tremendous rib shape while still maintaining a very feminine and maternal look.

RF Ms IA Wind 722 came out of the gate firing for us. Her first calf makes our online show heifer sale and goes to a junior in Iowa as one of the high selling lots. Her second calf is the one we discussed in the footnotes above and was an online sale highlight selling to Englerts in Kansas. Her third calf is a lead off lot in this year's bull sale Lot 3 RF Outsource 135 and is a full brother to the RF 035 heifer.

RF IA Wind 722's dam also was a sale highlight and top seller at the American Royal as a heifer calf. 722 carries an EPD profile that puts her in the Top 35% for BW, Top 20% for YW, Top 25% for Milk, Top 20% for Maternal as well as boasting excellent carcass EPDs in the Top 15% for CW, Top 25% for REA and Top 15% for Marbling. It only takes a quick glance at her pedigree to realize those breed leading, predictable genetics are the reason she has been cranking out good ones since she got into production.

RF Ms IA Wind 722 has proven she needs to be in the donor pen, and this will be your opportunity to get in on one of the first flushes of this exciting young cow. Whether you are looking to raise elite show heifers and maternal females or performance bulls with eye appeal We truly believe this cow has shown us in her young life, so far, that she can do just that and be the generator to strengthen your operation.

Force of Nature is exactly that. This will be some of the very first semen opportunities offered on one of the coolest built, smooth and boldest bodied, and biggest haired charolais bulls I've set eyes on. Seamless in his transition from each third, bold and square in his muscle pattern, he's a level hipped Charolais sire that still tacks on an exquisite neck attachment and striking front third that the show ring so desires. An absolute meatwagon that can flat out get out and go when set in motion. Sired by the past Wright Charolais and Cody Cattle Company high seller, Redemption, who is taking the breed by storm. Backed by a Supreme World Champion, and full sister to Outlier, out of the infamous Berkly, has been straight up dominant in her campaign across Canada. If you have a northern friend, chances are, you've heard them rant and rave about this Supreme Champion Female at Agribition. Get in early on what's sure to be the next go to sire in the Charolais Breed.

Semen ships from Nichol's Cryo Genetics, Iowa.
