## RIDDER FARMS INCENTIVE PROGRAM:

The Ridder Farms family is going to start a Junior Charolais incentive program. It will be based around FIVE Junior Shows which are Kansas City, Louisville, Denver, the Missouri State Fair and the AIJCA Junior Nationals. They will pay \$1,000 at each of those 5 shows to any junior that buys a Ridder Farms heifer and takes her to the Grand Champion banner! That \$1,000 will be paid out as \$500 in cash and \$500 as sale credit. They will give \$750— \$250 cash and \$500 credit in future sales if a Ridder Farms heifer is the Reserve Grand Champion of any of those 5 shows. The credit must be used within one year of the win on any Ridder Farms female sold at auction or private treaty. This incentive program is only good on Ridder Farms raised heifers.

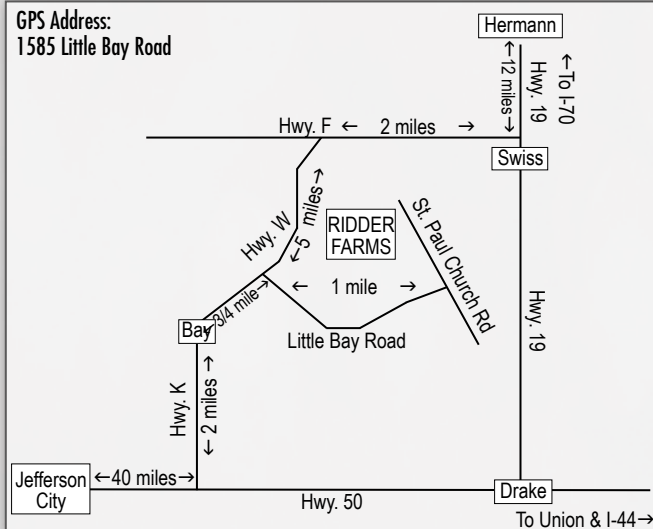

On behalf of the entire Ridder Family, I would like to welcome your family to our 5th annual Charolais sale. Derek and Douglas, Dustin and his wife Tricia and sons Trace and Trigg and I look forward to hosting you and your family on our new sale date, November 28, the Saturday after Thanksgiving. We have a lot to be thankful for, not only our family but our wonderful Charolais family of friends as well. We are thankful that we have the opportunity to continue to farm 7th generation land here in Central Missouri and that we have had Charolais cattle as a part of the farm for 3 generations.

Though the times have changed our goals have not. For over thirty years we have strived to produce cattle that are acceptable to you. We are appreciative of our show ring successes as well as your acceptance of our cattle through our sales. Our goal has always been to produce cattle that are pleasing to look at, structurally correct, performance based, and that will be functional, productive cows. Our donor cow families are built on those principles. We hope that the values in our cow families are the values that your family can use in continuing your successful Charolais breeding program.

We have worked hard to assemble this sale offering of high quality genetics and we along with our consigners would be pleased for you to join us on November 28 to evaluate our cattle and enjoy food, refreshments and Charolais fellowship. If we can help you in any way before the sale, please contact Derek or myself.

- You talk about a female that when you look at her, you know you will be hearing more about her in the future as a donor, well here she is! This December heifer is sired by LT Investment who sired the top selling open heifer in last year's sale and she is out of our awesome donor #7515! Besides being huge-bodied and massive in terms of her design, her pedigree is loaded with some of the best sires and donors our breed has to offer. Yes, the #7515's all go back to the great M & M donor VCR Miss Duchess 433.

- This is a full sister to the Ty Dybdal heifer he purchased from us in our 2012 sale for \$5,000, that went on to be named the National Reserve Junior Calf Champion at Fort Worth two months after that sale. This heifer came in from a cooperator a little later and thus is greener in her condition when we shot pictures, but don't let that fool you. She is correct in her lines, feminine made and long-necked. When she catches up to her contemporaries, and she will, you will be happy you own this one. These X-Factor daughters are making one heck of a kind of brood cow.

• When thinking of Family Values and what great cow families can do for someone's operation, the Greta cow family comes to the front of my mind real quick. This daughter of Greta sired by Ledger will be a front pasture donor after her show days are over. Just like all the Greta calves this one also has all the center body and rib shape that one could ask for. She is a maternal sib to RF Greta 96Z, a past sale topper at \$10,000 and was the 2013 Missouri State Fair Champion Female for C&H Farms. After having seen the kind of cow she made for C&H and seeing what other daughters have done I believe this is one of those can't miss cow families that is going to be a big part of our operation moving forward. It's truly unique to have this phenomenal pedigree and achieve her elite quality look! Buy with confidence. Entered in Louisville.

• We didn't have a lot of these Bohannon calves this past spring but we wish we had more. We had two heifers out of him and both of them made the sale so that should tell you the kind of job he is doing and the excitement we have for him. This heifer's dam was chosen by Utopia Genetics, SJ Charolais and Ridder Farms out of the 2011 American Royal Ten Grand Sale, at \$7,000, for her look and pedigree. Speaking of pedigree look across this one and you will find a blend of Canadian genetics with Cigar, Grid Maker, Wyoming Wind, Unlimited Ease 9108 and a shot of HooDoo all stacked up together.

• Our first consignor open heifer and a good one. This heifer is a sib to the heifer that sold for \$9,000 to Griswold Cattle as a future donor to be. This heifer exhibits the same qualities of that heifer both sired by our great home-raised herd sire TCCS Inxs's No Doubt (Fearless). To the best of the Thurnau's knowledge this is the last of his progeny to sell this year. His daughters at this point are averaging \$6,000. Several breeders are flushing their best to him. His progeny will hit the sales big in just a short time. This heifer is puppy dog tame, with tons of growth, femininity and depth. She has a high quality set of EPDs. She has been entered in the National Show in Louisville.

- A young March show heifer prospect here and one not to be taken lightly. Her sire demanded \$25,000 for 1/2 interest and then went to the 43rd National Show and was the National Reserve Junior Champion Bull. The dam of this heifer is one of the few daughters of the only full sister to RC Budsmaydad in the world and she was an AIJCA Junior National Reserve Grand Champion Heifer. • AC Southern Spice is one of my favorite cows. She has always been a cow I thought we should have flushed but we never have. She is sired by Duke 914 and out of the Ms Cigar G129 donor for Rick Evans and Josh Andre. This cow has put bulls into purebred herds and her first female raised one of the top seller's in last years sale to the Strnad Family in Kansas and she was also the National Reserve Calf Champion at the Royal. Her daughter sells as Lot 28, and then only a one-half interest. You can tell by her footnotes we are pretty jazzed up about her.

• Selling 1/2 Embryo Interest!

• This is a bred heifer that we feel has a lot of potential and for that reason we are only selling 1/2 embryo interest and no possession. Her dam Lot 27, has been one of our best cows and when you put Ledger on the top side of the pedigree the cow potential is endless. Her pedigree is loaded with breed greats such as Cigar and Duke 914. She ranked number one in her contemporary group for weaning weight to ratio 115. Her EPDs are outstanding across the board and she has terminal sire index ranking her in the top 3% of the breed. A maternal sister raised a \$7,000 open heifer calf in last year's sale, RF Southern Spice 402 (pictured). We want to continue to build on this great cow family and want a partner that is just as excited about her as we are.

• A great bred heifer consigned by our good friend Bill Nottke. The LT Ledger 0332 semen is the most widely used of all Charolais A.I. sires and with good reason; folks there is not a bull in the breed doing a better job than Ledger. She comes out of a female bred just the way Bill likes them; Smokester x Eatons Bullseye. Her A.I. service sire is the awesome son of Keys All State out of the National Champion \$50,000 TR PZC Firegirl 9745W ET that Bill purchased in the National Sale in Denver in 2014 for \$18,500 for half-interest from Nate Suttles and Suttles Charolais Farm. That popular bull was a member of the 2014 Denver Reserve Grand Pen-of-Bulls.

Ashlee was one of the best cows I have ever laid eyes and has done our operation a superb job with her progeny. This bred female out of the Canadian sire Sanchez offers a unique twist on these genetics. The following Foglesong Charolais Lots 40 through 49 were pasture exposed to multiple purebred herd sires including mainly the two reference sires on the following page; Southern Gridmaker 05200 & Southern Easy Pro 01395. These ten (10) cows were pasture exposed to those two herd sires for the first 30 days of the breeding season in the summer of 2015 from June 10, 2015 to July 10, 2015. After that time, these ten cows were then pasture exposed to more multiple sires. All of the pasture sires have DNA on file at AICA and parentage verification will be determined when these calves are born. - This beautiful brood cow, is one of the only breeding age females to ever leave Lindskov-Thiel Ranch in South Dakota as a bred heifer. She was Abbey Thiel's choice for a show heifer in 2010 out of all of the entire 2009 born heifers on the ranch, so you know she was special. Abbey took her to the championship spot during the 2010 Junior Nationals in Sioux Falls as Reserve Division Champion. That didn't seem that exciting then until you realize that two of the heifers she placed over in that division, two months later were the two National Champion Females in Kansas City! Wild Indian Acres added her to their donor program at that point. The dam of this female is an AICA Dam of Distinction and a flush in her sold for \$8,000 in the 2011 Charolais in the Rockies Sale in Denver. LT Blue Ballerina 9405 is open and ready to flush immediately after the sale.

•That's right, your choice of these E.T.s out the recent \$50,000 feature in the Utopia Genetics Dispersal on September 5th. All six were born in September, 2015.

•Ian Glassman, Utopia Genetics first purchased a flush out of 3G Cowgirl Xquisite in the Charolais in the Rockies Sale in 2012 for \$5,000 and then flushed her to KASS/CJB Quiet Riot ET. He sold two heifers out of that flush at weaning time that averaged \$12,000 and then wisely purchased her. During the Utopia dispersal another one of her Quiet Riot daughters topped the open heifer division at \$15,000. It doesn't take a lot of guess work here to figure out that this offering is quite intriguing.

• **Selling a Guaranteed Successful Flush in SCR Ms Turbo 7003!**

• If you want to talk about family values, here is an interesting story. This great donor SCR Ms Turbo 7003 was first discovered during the 2011 Sonderup Charolais Ranch sale when after the dust cleared she sold for \$10,000 to top the sale. After she got on the trailer, more deals were struck and she ended up in the partnership of Ridder Farms, Wright Charolais and Wild Indian Acres. All three of these breeders were searching for an outcross donor that they could flush to the popular Fire Water x Thomas Ms Impressive 0641 son Rapid Fire. In one flush, she created a firestorm or a TURBO Storm of success when 8 E.T.s were born. In the fall of 2013 six of her Rapid Fire weaning age heifer calves sold at public auction for; \$4,000, \$5,000, \$5,750, \$5,750, \$6,500 & \$7,500. The only full sib bull born in that flush sold for \$7,500 as a yearling. Then in 2014, the only heifer that didn't get sold as a weaning age heifer went across the block during the Ridder Farms sale to the tune of \$12,000! Here is your opportunity for some TURBO power!
